PROFESSIONAL SUMMARY

Dedicated Full Stack Web Developer specializing in building scalable, enterprise-level applications by seamlessly bridging robust backends with premium frontend experiences. Expertise spans crafting clean, interactive user interfaces using React, Next.js, and advanced styling, while engineering secure, high-performance server architectures with Node.js, PostgreSQL, and Prisma. Passionate about transforming complex requirements into responsive, high-end web applications that deliver exceptional user experiences.

TECHNICAL ARSENAL

Frontend Development: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion, GSAP

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, SQL, Prisma ORM

Tools & Cloud/DevOps: AWS, Docker, Git, GitHub, Postman, Figma, VS Code, JWT Authentication

PROJECTS

Aura-Artifact - E-Commerce Platform ([Live Project](#) | [ClientBD](#)(Code | [Server Code](#))

- Built a comprehensive multi-vendor e-commerce platform featuring a robust admin dashboard and a dynamic "Become a Vendor" onboarding system.
- Engineered secure data flows for product management, vendor authentication, and seamless order processing.
- Developed scalable UI components and integrated RESTful APIs to ensure an optimized and secure shopping experience.

Scholar Stack - Educational & Academic Platform ([Live Project](#) | [Client Code](#) | [Server Code](#))

- Developed a comprehensive full-stack platform using a decoupled client-server architecture for improved scalability.
- Built a highly responsive and intuitive user interface to streamline the browsing and user experience.
- Integrated secure backend RESTful APIs to handle dynamic data and user interactions efficiently.

Talentist Velo - Talent Acquisition Platform ([Live Project](#) | [Client Code](#) | [Server Code](#))

- Engineered a dynamic job board and talent portal using Next.js and robust backend services.
- Implemented secure user authentication and streamlined data flows to connect job seekers with recruiters seamlessly.
- Designed responsive, component-driven UI layouts optimized for cross-device compatibility.

NovaMed - Healthcare Management System ([Live Project](#) | [Client Code](#) | [Server Code](#))

- Developed a comprehensive medical application tailored for modern healthcare operations and patient tracking.
- Integrated advanced booking logic, user dashboards, and scalable database architecture.
- Focused on data security and high-performance server interactions for reliable medical record handling.

EXPERIENCE

Web Developer Intern | Gao Tek Inc.(2025-05-22-2026-03-04)

- Collaborated on web development tasks, contributing to the building and maintenance of modern digital solutions.

IT Support Specialist | Manfare BD (2023-03-09-2024-04-03)

- Monitored and managed the company's website backend to ensure seamless order processing and workflow efficiency.

EDUCATION

BSS Bachelor of Social Science | Green University of Bangladesh

STRENGTHS & SOFT SKILLS

- **Problem Solving:** Identified and resolved critical project bugs, improving launch readiness ahead of schedule.
- **Adaptability:** Successfully transitioned project priorities to meet evolving client demands and market needs.
- **Team Collaboration:** Collaborated efficiently within teams to ensure smooth workflow and feature deployments
