

AHOSANUL HAQUE NOOR

FULL STACK WEB DEVELOPER

ahosanulhaquenoor@gmail.com | 01851600159 | [GitHub](#) | [LinkedIn](#) | [YouTube](#)

PROFESSIONAL SUMMARY

Dedicated Full Stack Web Developer specializing in building scalable, enterprise-level applications by seamlessly bridging robust backends with premium frontend experiences. Expertise spans crafting clean, interactive user interfaces using React, Next.js, and advanced styling, while engineering secure, high-performance server architectures with Node.js, PostgreSQL, and Prisma. Passionate about transforming complex requirements into responsive, high-end web applications that deliver exceptional user experiences.

TECHNICAL ARSENAL

Frontend Development: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion, GSAP

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, SQL, Prisma ORM

Tools & Cloud/DevOps: AWS, Docker, Git, GitHub, Postman, Figma, VS Code, JWT Authentication

PROJECTS

Talentist Velo — Talent Acquisition Platform

[Live Project](#) | [GitHub Repository](#)

- Engineered a dynamic job board and talent portal using Next.js and robust backend services.
- Implemented secure user authentication and streamlined data flows to connect job seekers with recruiters seamlessly.
- Designed responsive, component-driven UI layouts optimized for cross-device compatibility.

NovaMed — Healthcare Management System

[Live Project](#) | [GitHub Repository](#)

- Developed a comprehensive medical application tailored for modern healthcare operations and patient tracking.
- Integrated advanced booking logic, user dashboards, and scalable database architecture.
- Focused on data security and high-performance server interactions for reliable medical record handling.

Rent-Desh — Localized Rental Marketplace

[Live Project](#) | [GitHub Repository](#)

- Built an interactive property and asset rental platform explicitly tailored for the Bangladesh market.
- Created intuitive filtering, dynamic listings, and fluid page transitions using modern frontend libraries.
- Ensured seamless data synchronization between the client and server for real-time availability updates.

EXPERIENCE

IT Support Specialist | Manfare BD

- Monitored and managed the company's website backend to ensure seamless order processing and workflow efficiency.

Online Brand Protection Executive | Genex Infosys

- Operated as a detail-oriented professional ensuring brand integrity and securing online assets.

EDUCATION

BSc - Bachelor of Social Science

2026 – Present

Green University of Bangladesh

STRENGTHS & SOFT SKILLS

Problem Solving

Identified and resolved critical project bugs, improving launch readiness ahead of schedule.

Adaptability

Successfully transitioned project priorities to meet evolving client demands and market needs.

Team Collaboration

Collaborated efficiently within teams to ensure smooth workflow and feature deployments.
